

SF40

d.light SF40

The d.light SF40 rechargeable solar fan allows you to keep cool during summer days and nights, increasing your ability to be productive and sleep better. Keep the scorching heat at bay using the power of the sun itself!

Solar Fan

TECHNICAL INFORMATION

Solar Panel
Efficient panel for faster charging

Battery Powered
Up to 8 hours per full charge

Bright Light
Built-in LED lighting

Wide Spread
Oscillation to cover the entire room

Cage size	12"
Number of blades	3
Motor type	Brush
Materials	ABS, PC, Metal
Input voltage	10V-15V
Operating power	8W
Number of speed settings	2
Product lifetime	3,000 hours
Runtime high settings	5.5 hours
Runtime low settings	8 hours
Solar panel	10W, 10V, 1A
Battery capacity	4,400mAh
Battery voltage	7.4V
Cell Chemistry	NCM
Charging time	5-8 hours with solar panel
Lighting	18 leds, 0.06W each
d.light warranty	1 year limited warranty
Certification	MSDS (Battery only)
20 ft Container loading	950
40 ft HQ Container loading	2,300

In the box
Fan + solar panel
